

Our Uniform Options

The purpose of this page is to give you a look at the uniform styles that we have available to wear. We wear the InSport brand of uniforms. InSport provides quality uniforms and maintains the various styles that they produce unlike some of the other manufacturers who change styles every few years. This enables us to continue wearing the same design which reduces the need for our athletes to buy new uniforms every year.

The uniforms shown left (A) and right (B) are our basic uniform that we wear. The primary color is purple with white and black accents on both the singlet and the short. For youth sizes we use a different brand of uniform that is purple with white stripes. (C)

Options

We have some optional uniforms that some of our athletes wear. The girls have more possibilities than the boys.

Speedsuits (D) - The speedsuit is available for both boys and girls and is popular for sprinters and jumpers. The speedsuit and our regular uniform are about the same price.

Shimlet top with Medallion Short (E)- This combination is fast becoming a preferred look for the girls. Both the shimlet and short are made with lycra like the speedsuits. This uniform is more expensive than the others.

Briefs (F) - The brief is a popular short in track & field. The brief will work with both the shimlet top or our regular singlet.
